312	Gosshall Stream	1,170	5-10	September
313	Gosshall Northern Arm	1,440	2-5	September

Notes:

Please note that the above list shows target months for the cutting of each watercourse.

Some watercourses regularly require second cuts and are therefore given two target months.

Some lower risk watercourses may also be cut biennially.

Further details can be obtained by calling the IDB office or by emailing enquiries@riverstouridb.org.uk
